Immuni-Cal

- Formulated for an ideal balance of Calcium and Magnesium commonly deficient in turf
- Promotes healthy cell wall formation, increasing plants ability to overcome physical and environmental stresses
- Can be used as a foliar or soil application to improve soil structure affected by Sodium accumulation

Rates:

Turf (Greens & Tees)

Foliar application:

Apply 65-255 ml/100 m² in enough water to allow thorough coverage.

Soil application:

Apply 255-510 ml/100 m² in enough water to move product into soil.

Lawns and Sod

Apply 192-255 ml/100 m² in enough water to allow for thorough coverage.

Repeat every 14-21 days as necessary.

CAUTION: Keep out of reach of children.

Direction for use:

Immuni-Cal should be applied in enough water to allow for thorough coverage.

A jar compatibility test should be performed on new unfamiliar chemical combinations prior to mixing and application.

Precautions:

Shake well before each use. Avoid getting in eyes, mucous membranes or on skin. Use of side-shielded safety glasses is recommended. Use with adequate ventilation. Keep container capped when not in use. Do not contaminate feed, seed, or water supplies. Avoid spraying on concrete or painted surfaces as staining may occur.
