Plant Products Welcomes

Andrew Marsan as Turf Technical Sales Representative

Ancaster, Ontario. June 26, 2023 - Plant Products, a leading distributor of inputs to golf courses and lawn care operators in Canada, is pleased to announce the appointment of Andrew Marsan as their new Turf Technical Sales Representative serving customers in the Greater Toronto Area. A self-described 'turf nerd', Andrew is always looking for new, innovative strategies to manage the turfgrass challenges superintendents experience everyday.

A graduate of Seneca College's Golf Course Technician program, Andrew started in the turfgrass industry at a very young age and is already in his seventeenth season. Andrew has worked as an assistant superintendent at several golf courses in the region and most recently served as the superintendent, property manager and director of operations at Caledon Woods Golf Club in Bolton. He is also an Accredited Golf Superintendent (AGS) through the Canadian Golf Superintendents Association (CGSA).

"Andrew is a great addition to the Plant Products turf team," noted Jason Ireton, Ontario Turf Sales Manager. "Our customers will quickly come to appreciate the unique combination of experience, expertise, and innovation his advice and support provides."

Originally from Aurora, ON, Andrew, his wife and daughter live in Loretto, ON. With golf in his blood, his hobbies consist of 'all things golf' and family.
