

# SAFETY DATA SHEET

### 1. Identification

| Product identifier                 | Turf Pride Granular 40-0-0 (NUTRALENE   | ® fertilizer)   |  |
|------------------------------------|---|---|--|
| Other means of identification      |   |   |  |
| Product code                       | KAS_NUTRALENE_US_EN   |   |  |
| Synonyms                           | NUTRALENE® 40-0-0 fertilizer * NUTRALENE® Micro 40-0-0 fertilizer * NUTRALENE® Mini<br>40-0-0 fertilizer * NUTRALENE® Standard 40-0-0 fertilizer  |   |  |
| Recommended use                    | Fertilizer.   |   |  |
| Recommended restrictions           | Use in accordance with supplier's recommendations.  |   |  |
| Manufacturer/Importer/Supplier/    | Distributor information   |   |  |
| Manufacturer/Supplier<br>Emergency | Koch Agronomic Services, LLC<br>4111 E 37th St N<br>Wichita, KS 67220 US<br>kochmsds@kochind.com<br>1.866.863.5550<br>For Chemical Emergency<br>Call CHEMTREC day or night<br>USA/Canada - 1.800.424.9300<br>Mexico - 1.800.681.9531<br>Outside USA/Canada - 1.703.527.3887<br>(collect calls accepted) | Distributed by: Plant Products Inc<br>50 Hazelton St.,<br>Leamington, ON N8H 3W1<br>1-800-387-2449<br>www.plantproducts.com |  |
| 2. Hazard(s) identification        |   |   |  |
| Physical hazards                   | Not classified.   |   |  |
| Health hazards                     | Not classified.   |   |  |
| OSHA defined hazards               | Not classified.   |   |  |
| Label elements                     |   |   |  |
| Hazard symbol                      | None.   |   |  |
| Signal word                        | None.   |   |  |
| Hazard statement                   | The mixture does not meet the criteria for cl   | lassification.  |  |
| Precautionary statement            |   |   |  |
| Prevention                         | Observe good industrial hygiene practices.  |   |  |
| Response                           | Wash hands after handling.  |   |  |
| Storage                            | Store away from incompatible materials.   |   |  |

Disposal Hazard(s) not otherwise classified (HNOC)

## 3. Composition/information on ingredients

# MixturesChemical nameCAS number%Urea formaldehyde polymer9011-05-695 - 100Urea57-13-6< 5</td>DyeProprietary< 0.1</td>

Dispose of waste and residues in accordance with local authority requirements. None known.

| Composition comments   | All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.  |  |
|--|---|--|
|  | This Safety Data Sheet is not a guarantee of product specification or NPK value(s). NPK content is<br>on specified sales orders, customer invoices, or product specification sheets obtained from<br>supplier.  |  |
| 4. First-aid measures  |   |  |
| Inhalation   | Move to fresh air. Get medical attention if any discomfort continues.   |  |
| Skin contact   | Wash with soap and water. Get medical attention if irritation develops or persists.   |  |
| Eye contact  | Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if irritation develops or persists.  |  |
| Ingestion  | Rinse mouth. Get medical attention if any discomfort continues.   |  |
| Most important<br>symptoms/effects, acute and<br>delayed                     | Eye contact: Symptoms can include irritation, redness, scratching of the cornea, and tearing.<br>Skin contact: Mild skin irritation.<br>Dust may irritate throat and respiratory system and cause coughing.   |  |
| Indication of immediate<br>medical attention and special<br>treatment needed | Treat symptomatically.  |  |
| General information  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.  |  |
| 5. Fire-fighting measures  |   |  |
| Suitable extinguishing media   | Water fog. Water spray. Carbon dioxide (CO2). Foam.   |  |
| Unsuitable extinguishing media   | None known.   |  |
| Specific hazards arising from the chemical                                   | Irritating and toxic gases or fumes may be released during a fire.  |  |
| Special protective equipment<br>and precautions for firefighters             | Self-contained breathing apparatus and full protective clothing should be worn when fighting chemical fires. Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace.  |  |
| Fire fighting<br>equipment/instructions                                      | Move containers from fire area if you can do it without risk. Use standard firefighting procedures and consider the hazards of other involved materials.  |  |
| General fire hazards   | Bulk material is non-combustible. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.   |  |
| 6. Accidental release measures   |   |  |
| Personal precautions,<br>protective equipment and<br>emergency procedures    | Avoid inhalation of dust and contact with skin and eyes. Ensure adequate ventilation. Wear suitable protective clothing. For personal protection, see section 8 of the SDS.   |  |
| Methods and materials for containment and cleaning up                        | Stop the flow of material, if this is without risk. Prevent entry into waterways, sewer, basements or confined areas. Avoid dust formation. Sweep up or vacuum up spillage and collect in suitable container for disposal. If sweeping of a contaminated area is necessary use a dust suppressant agent which does not react with the product. After removal flush contaminated area thoroughly with water. |  |
|  | Never return spills to original containers for re-use.  |  |
| Environmental precautions  | Prevent further leakage or spillage if safe to do so. Do not contaminate water. Do not allow to enter drains, sewers or watercourses.   |  |

## 7. Handling and storage

| Precautions for safe handling                                | Keep away from all ignition sources including heat, sparks and flame. Minimize dust generation<br>and accumulation. Routine housekeeping should be instituted to ensure that dusts do not<br>accumulate on surfaces. Dry powders can build static electricity charges when subjected to the<br>friction of transfer and mixing operations. Provide adequate precautions, such as electrical<br>grounding and bonding, or inert atmospheres. Avoid inhalation of dust and contact with skin and<br>eyes. Use only with adequate ventilation. Observe good industrial hygiene practices. |
|--|--|
| Conditions for safe storage, including any incompatibilities | Keep container tightly closed. Store in a cool, dry, well-ventilated place. Store away from incompatible materials.  |

## 8. Exposure controls/personal protection

#### **Occupational exposure limits**

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

| Components   | Туре   | Value  | Form  |
|--|--|--|---|
| Dust (CAS -)   | PEL  | 5 mg/m3  | Respirable fraction.  |
|  | ==   | 15 mg/m3   | Total dust.   |
| US. OSHA Table Z-3 (29 C   | FR 1910.1000)  |  |   |
| Components   | Туре   | Value  | Form  |
| Dust (CAS -)   | TWA  | 5 mg/m3  | Respirable fraction.  |
|  |  | 15 mg/m3   | Total dust.   |
|  |  | 50 mppcf   | Total dust.   |
|  |  | 15 mppcf   | Respirable fraction.  |
| US. ACGIH Threshold Lim  | it Values  |  |   |
| Components   | Туре   | Value  | Form  |
| Dust (CAS -)   | TWA  | 3 mg/m3  | Respirable particles.   |
|  |  | 10 mg/m3   | Inhalable particles.  |
| US. Workplace Environme  | ental Exposure Level (WEEL) Guides   |  |   |
| Components   | Туре   | Value  | Form  |
| Urea (CAS 57-13-6)   | TWA  | 10 mg/m3   | Total particulate.  |
| ological limit values  | No biological exposure limits noted for  | the ingredient(s).   |   |
| posure guidelines  | Follow standard monitoring procedure   |  |   |
| propriate engineering  | It is recommended that all dust control  |  | aust ventilation and material   |
|  | to prevent the escape of dust into the   |  |   |

| Respiratory or skin sensitization                     | 1  |
| <b>Respiratory sensitization</b>                      | Based on available data, the classification criteria are not met.  |
| Skin sensitization                                    | Not a skin sensitizer.   |
| Germ cell mutagenicity                                | Based on available data, the classification criteria are not met.  |
| Carcinogenicity                                       | This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA. Not<br>classified.   |
| OSHA Specifically Regulate                            | d Substances (29 CFR 1910.1001-1050)   |
| Not listed.   |  |
| Reproductive toxicity                                 | Based on available data, the classification criteria are not met.  |
| Specific target organ toxicity -<br>single exposure   | Inhalation of dusts may cause respiratory irritation.  |
| Specific target organ toxicity -<br>repeated exposure | Based on available data, the classification criteria are not met.  |
| Aspiration hazard                                     | Not applicable.  |
| Chronic effects                                       | Frequent inhalation of dust over a long period of time increases the risk of developing lung diseases. Prolonged exposure may cause chronic effects. |
| Further information                                   | No other specific acute or chronic health impact noted.  |

- 12. Ecological information
- Ecotoxicity

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

| Components                    |  | Species        | Test Results          |
|-------------------------------|--|----------------|-----------------------|
| Urea (CAS 57-13-6)            |  |                |                       |
| Aquatic                       |  |                |                       |
| Fish                          | LC50   | Leuciscus idus | > 6810 mg/l, 96 hours |
| Persistence and degradability | No data is available on the degradability of this product. |                | y of this product.    |
| Bioaccumulative potential     | Not expected to bioconcentrate or bioaccumulate.           |                |                       |
| Partition coefficient n-octa  | nol / water (  | log Kow)       |                       |

| Urea (CAS 57-13-6)    | -2.11   |
|-----------------------|---|
| Mobility in soil      | This product is water soluble and may disperse in soil. |
| Other adverse effects | No data available.                                      |

#### 13. Disposal considerations

| Disposal instructions                    | Do not allow this material to drain into sewers/water supplies. Dispose in accordance with all applicable regulations.   |
|--|--|
| Hazardous waste code                     | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |
| Waste from residues / unused<br>products | Disposal recommendations are based on material as supplied. Disposal must be in accordance with current applicable laws and regulations, and material characteristics at time of disposal. |
| Contaminated packaging                   | Since emptied containers may retain product residue, follow label warnings even after container is emptied.  |

## 14. Transport information

## DOT

Not regulated as dangerous goods.

## IATA

Not regulated as dangerous goods.

## IMDG

Not regulated as dangerous goods.

Transport in bulk according to Not applicable.

Annex II of MARPOL 73/78 and

the IBC Code

#### 15. Regulatory information

US federal regulations This product is not hazardous according to OSHA 29CFR 1910.1200.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

Hazard categories

Superfund Amendments and Reauthorization Act of 1986 (SARA)

Immediate Hazard - No Delayed Hazard - No Fire Hazard - No Pressure Hazard - No Reactivity Hazard - No

#### SARA 302 Extremely hazardous substance

Not listed.

SARA 311/312 Hazardous No chemical

SARA 313 (TRI reporting)

Not regulated.

#### Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

Safe Drinking Water Act Not regulated.

(SDWA)

**US state regulations** 

This product does not contain a chemical known to the State of California to cause cancer, birth defects or other reproductive harm.

#### **US. Massachusetts RTK - Substance List**

Not regulated.

US. New Jersey Worker and Community Right-to-Know Act

Not listed.

US. Pennsylvania Worker and Community Right-to-Know Law

Not listed.

#### US. Rhode Island RTK

Not regulated.

#### **US. California Proposition 65**

Not Listed.

#### International Inventories

#### Country(s) or region

Inventory name

On inventory (yes/no)\*

United States & Puerto Rico Toxic Substances Control Act (TSCA) Inventory

\*A "Yes" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing

country(s).
