

TUFF ASH 65

Volcanic Rock Powder

A naturally occurring Volcanic rock (Basalt) that is crushed and milled to the specific size to release the Minerals into your soil instantly to enhance your harvest for years to come.

- All-Natural, from the Earth TUFF ASH*
Geologic compound, micronized mineral
- Restores your soil's vital trace mineral content
- Rich in Essential Minerals and improves quality and quantity of crops
- Revitalizes Soil, increases disease resistance, and plant vigor
- Instantly available to enhance plant/microbial interactions
- Creates mineral rich health giving produce
- Easy to apply
- Vegetables TASTE BETTER, higher brix value
- Larger root mass
- Elimination of soil toxicities
- Organically friendly and superior to synthetic fertilizers

DIRECTIONS FOR USE:

- Easy to apply; only needs to be used once per year.
- Mix 1:10 Ratio with composter soil medium, or apply directly at 0.5 kg/sq. meter
- On farmland, average application 200 kg/hectare.
- See website for specific farm applications.
- Always wear proper safety equipment.

GUARANTEED ANALYSIS

Silicon (SiO ₂)	50.1%
Alumina (Al ₂ O ₃)	13.3%
Iron (Fe ₂ O ₃)	14.3%
Magnesium (MgO)	3.40%
Calcium (CaO)	4.75%
Potassium (K ₂ O)	4.08%
Sodium (Na ₂ O)	4.10%
Titanium (TiO ₂)	1.19%
Manganese (MnO)	0.29%
Phosphorus (P ₂ O ₅)	0.18%
Loss on Incineration	3.74%

Plus 55 additional trace elements derived from Basalt
