**Cannabis Production**

To Whom It May Concern:

BioSafe Systems has been approached for documentation of approval from PMRA, CFIA or Health Canada pertaining to the use of its products in cannabis production. In the majority of cases these agencies do not provide specific approval related to the use in cannabis.

SaniDate 5.0 (DIN# 02354594) is approved for the use patterns as indicated on the label by CFIA and Health Canada for the sanitization and disinfection of various hard surfaces such as equipment and tools, when used according to the label directions for use. Additionally, SaniDate 5.0 must not be sprayed directly on cannabis plants.

ZeroTol (PCP # 29508) is approved for the suppression of Powdery Mildew and Botrytis on cannabis (marihuana) plants produced commercially indoors and for the treatment of greenhouse surfaces and equipment when used according to the label directions for use.

Always follow label directions for use or contact your BioSafe Systems representative.

Sincerely,

A handwritten signature in black ink, appearing to read "Donna Bishel", with a long horizontal flourish extending to the right.

Donna Bishel

This will acknowledge your submission dated 2011/01/31, concerning the aforementioned non-food chemical product for which you have requested acceptance for use in food processing facilities.

Nous accusons réception de votre soumission datée du 2011/01/31, concernant le produit cité en rubrique pour lequel vous demandez une acceptation pour utilisation dans les établissements de transformation alimentaire.

The final printed label has been reviewed and the contents of the label appear satisfactory for use in food facilities.

L'étiquette finale imprimée a été revue et son contenu nous apparaît acceptable pour utilisation dans les établissements alimentaires.

Therefore, no objection will be taken to the use of the above non-food chemical product in food facilities, provided that it is used in keeping with the instructions outlined on the label.

Ainsi, nous n'avons aucune objection à ce que le produit chimique non alimentaire ci-haut mentionné soit utilisé dans les établissements alimentaires, à condition qu'il soit utilisé conformément au mode d'emploi indiqué sur l'étiquette.

This acceptance of this non-food chemical will depend upon its continued acceptability to all concerned.

L'acceptation de ce produit chimique non alimentaire sera conditionnelle à la satisfaction de toutes les parties intéressées.

Should any changes occur in the chemical formulation, or in the labelling format of the aforementioned non-food chemical, then this acceptance will be considered **NULL and VOID**.

Cette acceptation sera considérée comme **NULLE et SANS EFFET** si l'on procède à une modification quelconque dans la formulation chimique, ou sur l'étiquette du produit chimique non alimentaire ci-haut mentionné.

Yours truly,

Je vous prie d'agréer l'expression de nos sentiments les meilleurs,

Agent de programme  
Évaluation chimique  
Direction des sciences de la salubrité des aliments

Bernard Dallaire  
Program Officer  
Chemical Evaluation
