Re: Mosaic Potash Belle Plaine Potassium Chloride Product

Please be advised that Mosaic Potash Belle Plaine potassium chloride products are mined from naturally occurring minerals.

Mosaic Untreated White Fine potassium chloride product does not encounter the addition of other ingredients during the processing or bagging of the product at the Mosaic Potash Belle Plaine facility.

If you require any further information please feel free to contact Quality Assurance at QualityAssurancePotashTeam@mosaicco.com

Regards,

Michelle Johnson
