

ReduHeat®

Liquid greenhouse shading for more grow-light and less heat

15 kg
13,5 L
3,57 US gal

ReduSystems®
The bright side of growing

NL

Vloeibaar schermmiddel voor meer groeilicht en minder warmte

ReduHeat reflecteert meer infrarood licht ten opzichte van groeilicht. ReduHeat is geschikt voor alle gangbare kasdek-materialen en is in hoge concentraties zeer slijtvast. Eenmaal opbrengen per seizoen is doorgaans voldoende. ReduHeat is eenvoudig en verantwoord te verwijderen met ReduClean.

Gebruiksaanwijzing (zie tabel)

1. ReduHeat alleen toepassen:
 - Op een droog en schoon oppervlak.
 - Onder sneldrogende omstandigheden. (T>10°C + RV<80%)
 - Wanneer het tijdens opbrengen of voor droging niet regent.
2. Bepaal de scherming. PAR = groeilicht, NIR = infrarood licht.
3. Spuitleivoestof = ReduHeat + water.
4. Vul de mengbak met het benodigde aantal liters schoon water.
5. Voeg de juiste hoeveelheid ReduHeat al roerend toe.
6. Roer de spuitvoestof tussentijds krachtig op.

Gebruiksaanwijzing voor een oppervlakte van 10.000m² (1 ha)				
Scherming* PAR	NIR	Aantal emmers** (liters)	Spuitleivoestof***	Referentie
32%	46%	33 (=446L)	Handpistool	1:3
28%	38%	27 (=365L)	1.700 - 2.000 liter	1:4
22%	28%	22 (=297L)	1.000 - 1.500 liter	1:5
			Sputboom	
			1.000 - 1.500 liter	

* Scherming inclusief kasdek en -constructie.
** Bij gebruik van spuitboom is de benodigde hoeveelheid ReduHeat 10% lager.
*** Totale benodigde spuitvoestof is afhankelijk van de weersomstandigheden.

Slijtvastheid

- Een hogere concentratie ReduHeat is slijtvaster dan een lagere.
- Boven gemiddelde hoeveelheid of intensiteit van neerslag zal de slijtage van de laag versnellen.

Verwijdering

- Gebruik minimaal 250L ReduClean per ha.
- Breng ReduClean bij voorkeur met een spuitmachine gelijkmatig op het kasdek aan.
- Reduceer niet toepassen op vochtig kasdek of bij kans op neerslag.
- ReduClean enkel toepassen wanneer binnen 1 week zware regen valt.
- ReduHeat nooit combineren met andere schermmiddelen dan ReduSystems producten of andere shading producten dan ReduSystem producten in combinatie met ReduHeat.
- Gebruik van daksproeiers ter koeling kan verwijderingsproblemen veroorzaken.

Gezondheidsrisico's

- Bij huid- of oogcontact afspoeien met water.
- Bij inname een arts waarschuwen.

Milieu

- Vraag de lokale autoriteiten of ReduHeat in het openbare water mag worden geloosd.
- Toets de geschiktheid en omgeving van waterwegen voor het laten instromen van ReduHeat. Voorkom indien mogelijk.
- Toets de bruikbaarheid van het bassinwater na instroom van ReduHeat.

Opslag

- ReduHeat dient vorstvrij opgeslagen te worden.
- Ongeropen emmers zijn 2 jaar houdbaar. Na 1 jaar opreken alvorens te mengen met water.

Disclaimer

Mardenkro is niet aansprakelijk voor schade door niet juist opvolgen van aanwijzingen of schade die buiten haar macht ligt.

Zie www.redusystems.nl voor uitgebreide gebruiksvoorwaarden.

EUH208 Bevat 1,2-benzisothiazol-3(2H)-on; 1,2-benzisothiazoline-3-on, mengsel van: 5-chloro-2-methyl-2H-isothiazol-3-on (N, CE 247-500-7) en 2-methyl-2H-isothiazol-3-on (EC no. 220-239-6) (3:1). Kan een allergische reactie veroorzaken. Veiligheidsinformatieblad op verzoek verkrijgbaar.

EUH208 Contient 1,2-benzisothiazol-3(2H)-one; 1,2-benzisothiazolin-3-one, mélange de: 5-chloro-2-méthyl-2H-isothiazol-3-one (N, CE 247-500-7) et 2-méthyl-2H-isothiazol-3-one (EC no. 220-239-6) (3:1). Peut produire une réaction allergique. Fiche de données de sécurité disponible sur demande.

EUH208 Contient 1,2-benzisothiazol-3(2H)-one; 1,2-benzisothiazolin-3-one, mélange de: 5-chloro-2-méthyl-2H-isothiazol-3-one (N, CE 247-500-7) et 2-méthyl-2H-isothiazol-3-one (EC no. 220-239-6) (3:1). Peut produire une réaction allergique. Fiche de données de sécurité disponible sur demande.

EUH208 Enthält 1,2-Benzisothiazol-3(2H)-on; 1,2-Benzisothiazolin-3-on, Gemisch aus: 5-Chlor-2-methyl-2H-isothiazol-3-on (N, CE 247-500-7) und 2-Methyl-2H-isothiazol-3-on (EC no. 220-239-6) (3:1). Kann allergische Reaktionen hervorrufen. Sicherheitsdatenblatt auf Anfrage erhältlich.

EUH208 Zawiera 1,2-benzisothiazol-3(2H)-one; 1,2-benzisothiazolin-3-one (2634-33-5), Mixture of: 5-chloro-2-methyl-2H-isothiazol-3-one (N, CE 247-500-7) and 2-methyl-2H-isothiazol-3-one (EC no. 220-239-6) (3:1). Może powodować wystąpienie reakcji alergicznej. Karta charakterystyki dostępna na żądanie.

ReduSystems®
ReduSystems is a brand of Mardenkro B.V.

ReduSystems® enables growers to make optimal use of sunlight in their greenhouses throughout the year. Our products influence natural light and heat transmission from the sun in every season to optimize the greenhouse climate for the crop – from a cooler climate in summer and more light in winter to diffusing light and influencing the light spectrum.
